Water, Wastewater & Reuse Engineers

ARBER ASSOCIATES AWARDED NATIONAL PARK SERVICE CONTRACT

LAKWOOD, COLORADO – The Pacific West Region (PWR) of the National Park Service has selected Richard P. Arber Associates to provide Civil/Environmental Engineering services for their facilities through 2012. The contract has a maximum value of \$7.5 million over its 5-year duration.

The PWR provides support to the National Park Service at facilities in California, Nevada, Hawaii, Guam, Saipan, and American Samoa.

Assignments will include evaluation, design and construction related

services for water and wastewater systems throughout the PWR jurisdiction. “We are excited to be able to continue to provide engineering support to the National Park Service and look forward to the challenging projects located in remote areas with unique constraints,” Rick Arber stated. “We believe our team of EDAW; Kleinfelder, Inc.; Greenberg+Short & Brennan Architects; The RMH Group, Inc.; Moffatt & Nichol; and L3 Communications will expand our level of service to the National Park Service,” Project Manager, Rob Anderson stated.

Arber Associates is a professional consulting engineering firm located in Lakewood, Colorado. Arber Associates provides water, wastewater and water reuse engineering and project management services to local and federal government agencies throughout the United States. The Arber staff has completed many water, wastewater and water reuse projects over its 15-year history of working for the National Park Service including:

- ◆ **Whiskeytown National Recreation Area, CA** - Brandy Creek Water Tanks and Rapid Sand Filters
- ◆ **Yosemite National Park, CA** - El Portal Wastewater Treatment Plant
- ◆ **Point Reyes National Seashore, CA** - Drakes Beach Water System Improvements
- ◆ **Golden Gate National Recreation Area, CA** - Presidio Water Treatment Plant
- ◆ **Devils Postpile National Monument, CA** - Sewage Lift Station Replacement
- ◆ **Mount Rainier National Park, WA** - Paradise Wastewater Treatment Plant
- ◆ **Lake Mead National Recreation Area, AZ** - Membrane Water Treatment Plant
- ◆ **Mesa Verde National Park, CO** - Water Treatment Plant

Point Reyes National Seashore
